A PARTY'S OPPORTUNITY.

The Danville (Va.) Bee says that "the Republicans party will, of course, be able to raise a howling large campaign fund for corruption and other purposes, but those who claim to read the signs of the times, say that the party is going backward." One scarcely need be able to read the signs of the times to discover this fact—it is in the air. The present session of Congress has proved disastrous to the Republican party, which far weaker than it was when it last met in December, 1898. At that time it was still going McKinley's way, as had been the case ever since the beginning of the Cuban war; his re-election seemed as certain as anything in the future of politics could be. Certainly has since, however, changed to doubt, and at this moment the chances appear to the candid mind balanced rather in favor of the Democrats. These over their opponents a debt of gratitude which they can never repay for the currency bill which was recently signed by the President and which removes all danger of the agitation of free coining of silver at least during the next administration. The Democratic party, in so far as it can be judged from present signs, is now in no mood to assume ordinary sense in order to carry this year's election. The opportunity of a life time is before it. Will it have the wisdom to seize this opportunity? Will it have the wisdom to live up to its privileges?

A State Primary.

The following from the Elizabethan Town News is commended to Democracy throughout the State for their thoughtful consideration:

"The Democratic State Central Committee should order a primary election this spring or summer to nominate a candidate for Governor, and also to send delegates to Kansas City. The people are sick and tired of the unfairness, trickery and corruption and fraud of conservatives, and the primary is certainly the fairest and most decent way to secure the sentiment of the people. Georgia and Maryland have used the primary for a number of years and it has given perfect satisfaction."

RUSSIA TALKS PLAINLY.

It must be acknowledged that Count Muravieff, the Russian Minister of Foreign Affairs, very boldly throws down the gauntlet to England as follows in the remarkable interview recently published in the Independence Belge, of Brussels. This powerful diplomat is correctly reported to be only 21 years of age. He soon forced into a war aimed at her very existence as a Power of the first class. According to the interview, there is a double temptation to precipitate this conflict—the first being that England must account for her unrighteous oppression of the Boers, the second being that "England is militarily decadent," and therefore easily to be whipped.

What's Your Face Worth?

Sometimes a fortune, but never, if you have a sallow complexion, a jaundiced eye, a crooked nose, a dimple on the skin—all signs of Liver Trouble. But Dr. King's New Pillis give Clear Skin, Rosy Cheeks, Rich Complexion. Only \$2 at drug stores.

HENRY WATTERSON is quoted as saying that if he was allowed to name the Democratic nominee for President, he would decline to do it.

What has become of one Mr. Macrum with his charges of a secret Anglo-American alliance? The American people are interested in that matter.

It is announced that when Kentucky is divided into two United States districts, Senator Wm. Lindsay will be appointed Judge of the Eastern division by President McKinley.

The Illinois Central Railroad Company, and the Louisville and Nashville to Tennessee, have announced that no passes will be issued to delegates to either the Democratic or Republican State Conventions that are to be held at Nashville. A uniform rate of one cent per mile each way will be charged.

It is very hard to stand idly and see our country go to the wall. We are anxious of the doctor. An Albany (N.Y.) druggist called at a drug store for a doctor to come and see his child, then very sick with croup. Not finding the doctor in he left word for him to come at once on his return. He also bought a bottle of Chamberlain's Cough Remedy. The child was soon relieved until the doctor should arrive. In a few hours returned, saying the child was better. The druggist Mr. Otto Scholz, though the family has since recommended Chamberlain's Cough Remedy, was very anxious to get the doctor until he has a constant demand for it from that part of the country. For sale by Cowgill & Cowgill, Hickman, and A. M. Shaw, State Line, druggists.

ROBBINS CRUSEE'S FATE.

We are receipt of a postal card from Chicago, stating that the body of one Robinson Merrigan, known in Fulton as "Robinson Crusee," on account of his notorious yarns, had been found on the corner of Madison and Street. The card stated that in Merrigan's pocket was found \$600 in currency and several blank checks on the First National Bank of this city. The handwriting on the checks was identical with that of Robinson's and it is the general opinion that Merrigan, hale and hearty, wrote the card himself. He had four dollars at one time during his stay in Fulton, and if he had \$400 he probably found it since his departure from Kentucky.

W. L. McCutchen Dead.

The community is bowed in sorrow because of the death of one of our most honored and beloved citizens, W. L. McCutchen, who died in his home in Hickman, on the evening of last Friday.

He was a good man, actuated in the best and noblest motives, and always willing and active in those things he did for his neighbors and fellow men. He was an old resident of Hickman, identified with our people in all their best interests, and his coming and going were always a source of pleasure and happiness to his friends and to the whole people. God bless his memory; his kindly deeds will live after him, and serve as holy incentive in the life to come.

He was a devoted husband and parent, and a sincere Christian man. Words cannot express the full meaning and feeling of those who loved and honored him.

For Many Millions of People will be
seen at the Solar Eclipse, May 28.

In one respect the sun's total eclipse of May 28, next, will be without precedent. Its path, instead of extending over the sparsely settled regions that intervene between Lowland and the Western coast, as in 1878, or stretching over the western part of the continent, as in 1851, when the United States had to send an expedition to the Caroline Islands, 1,000 miles west of South America, or let the eclipse go unobserved, will cross the five States of Louisiana, Mississippi, Alabama, Georgia, South Carolina and North Carolina, touch Virginia and traverse a fairly settled portion of the Republic where there are no less than 100 courses which meet to bring about a maximum of interest. The track of totality begins in the Pacific ocean just west of Mexico at sunrise, trends due east over Mexico, enters the United States very near New Orleans La., and extends northeastward over Mobile and Montgomery, Ala., passes close to Atlanta, Ga., and Columbia, S. C., over Raleigh, N. C., and leaves this country in the direction of Northern Va., West Virginia, Ohio, Indiana, Michigan, Minnesota, thirty other towns that are large enough to find place on the smaller map. After leaving the United States the path of the eclipse crosses the Atlantic ocean and touches Europe at Coblenz. Portugal, takes in Algiers and Northern Africa, and terminates near the northern end of the Red Sea at sunset. The eclipse will last about one minute and twelve seconds near New Orleans and one minute and forty seconds near Norfolk.

NEW GAME LAW.

Such is the Game Old Kentucky Now Enjoys.

The following are Kentucky's game laws, as prepared and published by the Northern exchange:

Plain citizens may be shot from January 1st to December 31st.

Senators, Governors and members of Congress may be shot during any political campaign and within sixty days thereafter.

Niggers can be shot at any time in the year. Hunters in search of this game are also allowed to use a stuffed club or a butcher knife.

If any man is caught drinking water it is a sign that he is no gentleman, save may be a drunkard with whatever weapon he may be armed at hand.

Coldones may be shot with impunity at any time; while a squirrel gun is recommended for dispatching majors and captains.

No man shall be allowed to kill in excess of six persons per day. In cases where it is an affair of honor this number may be increased to 100.

Every man who fails to note the remains of his victim from public right within forty-eight hours of the time the first volley is fired will be fined one gallon of moonshine.

Any citizen who steps on another citizen's toes may be shot on the spot, with the privilege of apologizing thereafter.

Golden Statute of "The American Girl."

The gold statue of "The American Girl," which is to be exhibited at the Paris Exposition was successfully cast. Miss Maude Adams, the actress was the model.

What was the sculptor's name? He was the son of a woman who remained on the floor for six feet in height, being of Miss Adams' own height. It weighs 612 pounds, and the bullion used is valued at \$187,000.

WHAT "PA" TOLD HIM.

A party of drummers had assembled at a railroad station in a nearby village to wait for a train. One of the drummers was very bold and the other was very timid. The bold one said to the timid one: "Well," said the bold one, "there was no room for the hands and the hair, and the hands and the hair must now hang out the window." The timid drummer then came in and said yesterday, every effort to banish the halucination having failed.

TO THE HICKMAN COURIER.

Wheeler's Plan.

Brig. Gen. Wheeler favors territorial control of the Philippines, with the islands divided into several territories. Some of the tribes have been well treated by the United States.

But I have gathered together enough courage to begin trusting that maybe it will escape the much used waste basket.

Having been a student of the State College of Kentucky for some time, I have become quite attached to the grand old institution, and the longer I stay the more am I inclined to remain here to teach. It is a school for the rich people of the country boy and the town boy, the protestant and the Catholic. It is a school in which the ambitious poor boy, as well as those of the rich, can obtain an education, thereby equipping himself for the better life.

I was originally inspired to enter the service of the church by the feeling of which generally existed toward the boy who appeared to be of small means. He is not looked down upon because he is poor, but at least any other college in the country; but if a deserving boy, he is esteemed and respected, and given a chance to earn his keep, which fact brings about a more congenial feeling than would be maintained with a merely city residence. The College is popular and growing rapidly, as years roll by, both in numbers and number of matriculates. The dormitory is now completed and filled; this year it is five hundred and sixty. All departments are now open to girls and their number is increasing at a rate of about five per year.

Some dormitory will be erected in the near future for their accommodation, the present plan being to add to the present building. The dormitory will be increased in a larger ratio, even than that of the boys.

The influence of the College is being spread among the graduates which turns out from year to year.

All these classes prove well qualified for the positions which they have attained in this school. They are able to cope with the graduates of any other similar institution of the South.

The course of study is a general course

which lead to the degrees of: B. M., E. C. E., B. S., A. B., B. A., B. Ed., etc.

Also the courses in Medicine, Management, etc.

All these courses are good and I would insist that you young people of Fulton County, who want an education, come to our school.

School commences Sept. 1. Am I sure you cannot get as good schooling with as little cost anywhere else in the South.

My object in writing this communication is to remind the people of my county of the opportunities afforded at the school of my alma mater. Many towns are enlisting in that end of the state has been somewhat neglected. The student can obtain an opportunity to further his studies by continuing his experience.

It need not cost him more than \$100 a year and if he is willing to work he can earn his keep.

So boys and girls may add—get ready this summer and go over to Lexington next September. I know you are interested in me. Our county had eight in school last year, and this year it has four boys and one girl; but next year let us double that number.

(Signed) ONE OF THE BOYS.

Used to Worry

Because his advertisements in the local papers didn't seem to attract attention—didn't draw a crowd to his store and help him to sell goods.

Now HE DON'T WORRY

Why? Because he has found that he can get fifty first-rate ads, click full of suggestions, the best that are appearing in his line in newspapers country over for a dollar—and that with their help it is mere play to arrange ads which fill the bill to a "T."
